There are two types of easements; primary used during the establishment of the ditch and secondary used to allow for access to the ditch for maintenance. The process to record the public interest involves the following: 1) adopt a resolution for the intent to record the ditch; 2) hold landowner information meetings; 3) hold a public hearing and 4) adopt an order to record.

WHEREAS, Mower and Freeborn Counties Joint County Ditch 5 ("JCD 5") is a Public Drainage System consisting of subsurface drain tile, open ditches or both; and

WHEREAS, JCD 5 was originally established by a District Court Order in Mower County which was filed on July 20, 1922, and was subsequently modified by the March 23, 1999, Order Redetermining Benefits and Damages, all according to the laws in effect at the time of establishment of said system; and

WHEREAS, the orders establishing and modifying JCD 5 created permanent easements within which the drainage system would be located, including area to allow for future maintenance and repair of the drainage systems; and

WHEREAS, the proceedings to establish and modify JCD 5 affected the acquisition of permanent right of way for open ditch and tile alignments, including acquisition of buffer areas adjacent to the top of open ditches; and

WHEREAS, damages were paid for the acquisition of permanent rights of way; and

WHEREAS, the orders establishing and modifying JCD 5 were never recorded in the office of the County Recorder of Mower County or Freeborn County. Rather, the orders were filed with the County Auditor of Mower County as required by law; and

WHEREAS, JCD 5 continues to convey agricultural drainage within its watershed; and

WHEREAS, the Joint Drainage Authority has continued to access the drainage system by utilizing the easements created at the time of establishment; and

WHEREAS, the Joint Drainage Authority has determined it to be in the best interests of the properties and the owners of property benefited by JCD 5 to determine and record the right of way occupied by JCD 5 and associated easements; and

WHEREAS, the Joint Drainage Authority will hold a public hearing on the proposal on the 26<sup>th</sup> day of January, 2011, at 1:30 p.m. and that notice of said hearing be provided according to law.

NOW THEREFORE, BE IT RESOLVED, that the center lines for the easements for JCD 5, depicted on the attached Exhibit "A," are hereby determined to be the duly established center lines of easements of a width of 115 feet either side of said center lines. The legal descriptions of said center lines are generally described in Exhibit "B". In the event the physical location of JCD 5 differs from the depiction or legal description as contained herein, the physical location shall govern.

BE IT ALSO RESOLVED, that the Joint Drainage Authority reserves the right, after due notice, to change the description provided herein in case of error or, if more precise information becomes available, by filing a supplemental resolution.
