Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

This year, Mower County staff completed feedlot inspections in Leroy and Lodi Townships. These townships were two of the 4 that the program was to do inspections in. The quantity of feedlots in these townships were much more than anticipated, so next year (2019), feedlot inspections will take place in Adams and Marshall Townships. Mower Inspected all feedlots in shoreland above 10 AU, and all feedlots outside of Shoreland above 50 AU, this included feedlots in the 100-299 and 300+ AU sites.
